# Introduction (\$DELREY)

DelRey Inu is a community-driven meme token created to pay homage to the beloved dog of Maye Musk, mother of Elon Musk. DelRey is often seen accompanying Maye in her social media posts and has become a symbol of the bond between pets and their owners. The token operates on the ERC-20 network, and it has a locked liquidity pool that will remain locked for 100 years, providing stability and security to the community.

## Tokenomics

DelRey Inu has a total supply of 1 million tokens, and it operates on the Ethereum network. The token has a 0% tax on transactions, which means that holders can buy and sell the token without any fees. Moreover, the liquidity pool has been locked for 100 years, which will prevent any rug pulls or other malicious activities.

# Token Distribution

DelRey Inu is a community-driven project, and there are no pre-sale or private sales. The tokens have been distributed fairly through an airdrop, and they are currently available for purchase on decentralized exchanges. The development team has not reserved any tokens, ensuring that the token's future is entirely in the hands of the community.

# Roadmap

## **Phase 1: Community Building**

The first phase of the project will focus on building a strong and supportive community. This will involve organizing regular community events, social media campaigns, and other activities to engage with the community. The team will also work to establish partnerships with other projects and communities to expand the reach of the DelRey Inu community.

## **Phase 2: Listings and Partnerships**

In the second phase, the team will work to get the token listed on centralized exchanges and other platforms. This will increase the visibility of the project and help to attract more investors and supporters. Additionally, the team will look to form partnerships with other projects and communities that share the same values as DelRey Inu.

## **Phase 3: Platform Development**

In the final phase, the team will work on developing a platform that will provide additional services to the community. This could include a wallet, staking, and yield farming capabilities, providing more opportunities for the community to engage with the token.

# Delrey Story

#SunnySunday with my long dog story 🐶💕

As you can see from my profile pic, I really love my dog. I read somewhere that having a dog is 12 years of absolute joy, two years of vet bills, then tragedy. It's still worth it. Let me help you through this

21 years ago, I was given a dachshund-terrier mix, GM. He went with me everywhere. Friends said I would never survive if anything happened to him. He brought me much happiness through really hard times.

My late sister, from Canmore, Canada, saw GM getting older and more feeble when I visited her. She said to me, humans live longer than dogs and I have to accept that. Enjoy the poem that she wrote. She also drew the pastel artwork.

When GM was nearly 15 years old, couldn't take stairs and was incontinent, I chose a lively maltese-terrier rescue to perk him up. (Actually, DelRey chose me. BTW, it is a long process to purchase a rescue.)

GM did have more energy but couldn't walk well. I would take them for a ride in a stroller. Then GM had a stroke and had to be put down. My daughter @toscamus went with me to the vet. She stayed with him while I howled in the waiting room.

I returned home, devastated. My new puppy was excited to see me and actually go for a walk. He was loving and cuddly. This was the best way to heal. My advice: get a new dog before your aging dog passes away.

# Story Continues

## 🏆 ARMY APPLAUSE "DELREY INU"

Our dog loving friends at DelRey Inu, have joined the Animal Army with a donation of \$4,000 to support the ongoing needs of permanently disabled pup Sebastian. This little sweetheart was crippled after a dog attack, which almost cost his life. This is a harsh reality of life on the street for puppies. Touched by Sebastian's story and making donations in-line with their love for dogs, we hope this crypto community focused organisation will continue to partner with us to save our homeless friends.

💛 Let's unite, together we're stronger! It takes an Army, thank you for in ours!

🐾 Check out DelRey Inu: <https://twitter.com/DelReyInu>

🏠 Sebastian and his Brother Lucky, are both available for adoption.

# Conclusion

DelRey Inu is a unique meme token that pays tribute to the bond between pets and their owners. The project is entirely community-driven, with no reserved tokens, and a locked liquidity pool, ensuring that the future of the token is in the hands of the community. With a strong and supportive community and a clear roadmap, DelRey Inu has the potential to become a leading meme token in the Ethereum network.
